#FollowUp

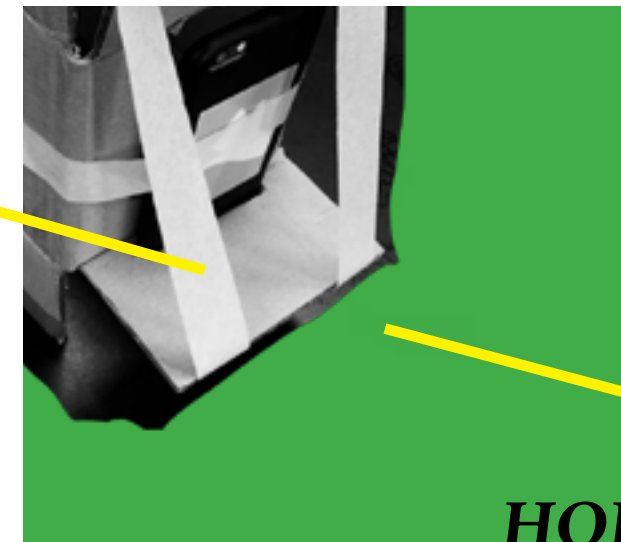

Step 1: Collect materials. Besides the tools outlined in Page 5 all you need is an empty cardboard box that fits over your head. Size of the box varies with your head proportions, *of course*.

Step 2: With the use of the knife, cut a small hole approximately half-the-size of your Phone screen in the front side of the box.

HOLDER/ PLATFORM FLAP

Step 3: Open the frontal flap of the box (bend it) to create a small platform for the Phone.

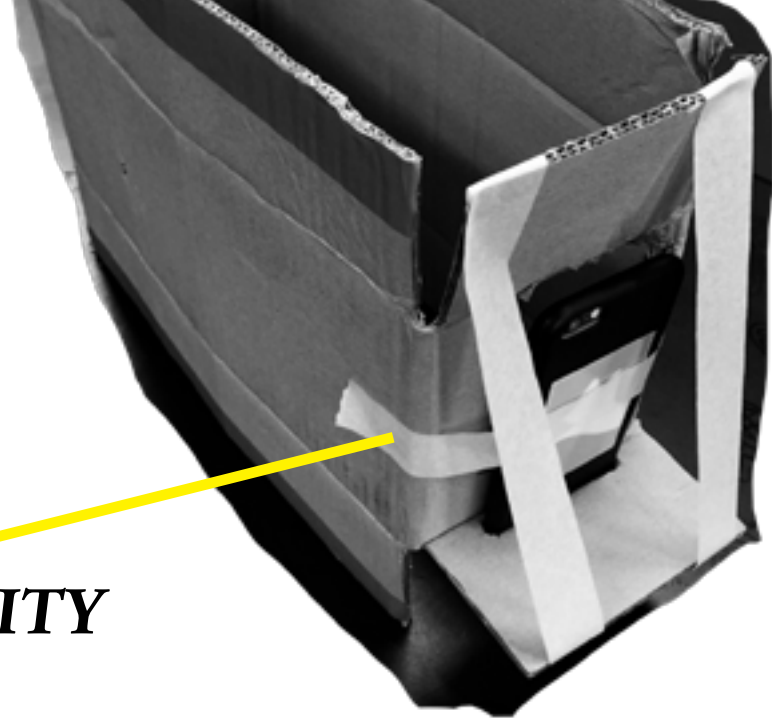

Step 4: Cut a second opening in the flap, or platform that spans the bottom of the Phone.

Step 5: Place the phone in its new holder.

Step 6: Use Tape vertically to connect the top of the box with the lower flap in a 90 degree angle.
