Notes 4-10-18

- Text is the oldest technology we have.
- The universe wasn't made for us. Do we really make things. We have to be humble (Latour?) We are co-creators
- Frankfurt school

How to give feedback

- Give resource/reference
- Question
- This worked for me...

We have to make documentation

- Text (titel, inleiding)
- References
- Instructables
- Video and photos

The end product doesn't have to be high tech. You can use the technology to make the project.

Black box

- what material, why do you use it, does it work, why does it work, is it designed to be open?
- Are you able to understand what happens in a black box without breaking it?
- Fairphone
- What is circuit bending?

11 okt.

Next assignment

The final piece has to be a stand alone (by yourself) project.

Project 4 Cartographic.
Mapping of your device?
Placing it into the context, world?

Connect it to your major

Expanded cinema, oscilloscoop
